

Absolu Apple coulis

Description

Mix the fruit purée with the cold Absolu Cristal to make a gel.
Absolu Cristal (which has a higher sugar content than the fruit) adds texture to the fruit purée and gives it a sweeter sensation.
Absolu Cristal's rather neutral flavor helps to preserve the fruit's aromatic profile.

Suggested uses

- Coulis : verrines, dessert assiette, panacotta, fromage blanc, glace et sorbet
- Decorations

Overall composition

Composition	1000 g	100%
Apple purée	800 g	80%
Absolu Cristal	200 g	20%

Technique

Once out of the freezer, combine the fruit purée and Absolu Cristal neutral glaze (40°F or 4°C), then homogenize with a mixer.
Set aside and store at 40°F (4°C).

Trick

You can change the neutral glaze and fruit purée's relative proportions to suit different textures and flavors.
