Confit NH Raspberry

Description

Often incorrectly referred to as a confit by pastry chefs, this product is actually a gel. Any changes you make to it can be reversed by reheating, and its texture is mostly affected by the amount of sugar around it, as well as pH levels.

Confit NH Raspberry

PLANT-BASED

78.8% FRUIT PURÉE

20% ADDED SUGAR

Ingredients

Framboise en purée, Sucre semoule, Glucose en poudre DE 33, Pectine NH

FREEZABLE

Overall composition

Composition	1000 g	100%
Sugar	100 g	10%
Glucose powder DE 33	100 g	10%
Pectin NH	12 g	1.2%
Raspberry purée	788 g	78.8%

Technique

Mix the caster sugar, glucose powder and pectin NH, then sprinkle the mixture onto the raspberry purée. Mix with an immersion blender until homogenous, then heat to 185°F (85°C), stirring all the while. Pour immediately.

Trick

If you break up the gel as you stir, it will have a different texture and behave in a different way. You can use a piping bag to add it to your dessert.

FRUIT PURÉE USED

Meeker Raspberry

TASTING TEMPERATURE

Chilled
