

## Fresh Blueberry paste

### Description

This firm gel is made through a synergy of two natural plant-based gelling agents. The lotas create a supple, elastic gel, while the agar-agar makes for a much firmer gel. Together, their qualities form a very pleasant, hybridized texture. This solution helps you add texture to the fruit purée without concentrating it, cooking it or adding lots of sugar.

As a result, you can serve your customers a truly fresh “fruit paste”.

### Suggested uses

- Decorations
- Plated desserts
- Desserts, tarts and mini gateaux
- Tiny after-dinner format
- Dessert glasses

### Fresh Blueberry paste PLANT-BASED

84%  
FRUIT PURÉE

15%  
ADDED SUGAR

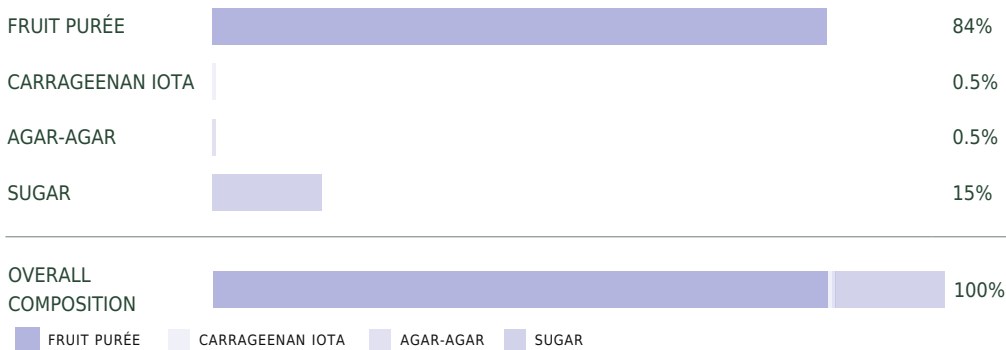

#### Ingredients

Blueberry purée,  
Sugar, Agar-Agar,  
Carrageenan Iota

NON-FREEZABLE

### Overall composition

Composition	1000 g	100%
Sugar	150 g	15%
Agar-Agar	5 g	0.5%
Carrageenan Iota	5 g	0.5%
Blueberry purée	840 g	84%

### Technique

Mix the sugar, agar-agar and Carrageenan Iota, then sprinkle them onto the fruit purée (40°F or 4°C). Homogenize with a mixer, then heat to 185°F (85°C), stirring all the while. Pour immediately.

### Trick

Thanks to its texture, you can slice it with a guitar cutter.

## FRUIT PURÉE USED

Wild Blueberry

## TASTING TEMPERATURE

Chilled
