#### Technique

Pour the gelatine over the small amount of puree yuzu at 4°C, then wait 15 to 20 minutes for the gelatine to hydrate.

Heat this mixture to between 50 and 60°C to melt the gelatine, then pour over the second part of the purée at 4°C and blend to mix well.

Combine about a third of the pureed fruit with the Italian meringue, starting the mixture with a whisk to bring the textures together.

Add the rest of the pureed fruit, mix with a pastry blender, then finish by gently folding in the whipped cream to keep the mixture as fluffy as possible.

Pour immediately.
